Introduction

Nahtam Social Responsibility has been set up in Abu Dhabi to address the evolving social needs of UAE citizens, UAE residents and the needy communities around the world. Nahtam Social Responsibility brings out for the first time in UAE, an international planetarium. The planetarium shows a wonderful world of stars, planets, the solar system, the Galaxies and much more. Equipped with state of the art technology, the planetarium aims to educate children and adults about the wonders of the universe. Nahtam’s planetarium will screen a variety of stunning astronomy related films from NASA Institute (USA) using 360 full dome, digital laser projection, with special sound effects to create a thrilling experience.
The objective of the program:

- Educating school students about Space science and Solar system and movement of the planets.
- Real sense the movement of the planets.
- Help students discover the secrets of the universe.

Program Details:

- Movie Time: 22 min for each movie
- Capacity: 20-30 children at a time
