

PLANETARIUM SHOW

Comes to Your School

Without Disturbing Regular Schedule of the School

Nahtam Social Responsibility has been set up in Abu Dhabi to address the evolving needs of UAE citizens and the needy communities around the world. Nahtam Social Responsibility brings out for the first time in UAE an International Planetarium.

Nahtam's Planetarium brings the wonderful world of Stars, Planets, the Solar System, the Galaxy and much more. Equipped with movable state of the art technology, the Planetarium aims to educate students about the wonders of the universe as per age group and curriculum.

Nahtam's Planetarium will show a variety of stunning astronomy films from NASA (USA) using 360 full dome, digital projection with special sound effects to create a thrilling experience. Our well – designed exclusive dome (7m diameter x 4m height) can accommodate 25 children at a time.

The Objective of the Program:

- o Educating school students about Space Science and The Solar System.
- o To provide realistic experience on how the Solar System works.
- o Help students discover the secrets of the universe.

Program Details:

- o Movie Time: 22 mints. for each movie
- o Capacity: 25 - 30 children at a time
- o Time: 9:00 am to 2:00 pm (according to the school schedule)

What We Need:

- o An air-conditioned room with min. 7 meter length x min. 7 meter width and min. 4-5 meter height (it can be an indoor play area, an auditorium or a conference room).
- o Power connection to plug- in the cable.

Definition of the Program:

- o Children will be brief about the film before entering the Planetarium.
- o Children are not allowed to wear shoes inside the Planetarium.
- o Foods and drinks are not allowed inside the Planetarium.
